

Founded in 1925, the **Pasadena Society of Artists** is one of the area's original professional artist groups. The Society is noted for its vigorous, active membership, wide diversity of artistic statement, and high professional standards. Membership is by juried submission.

PSA is a non-profit organization whose mission is to present the works of its many talented and creative artists to the community of Pasadena and surrounding areas. Combining an active tradition of community participation and partnering with local community arts organizations, as well as philanthropic, humanitarian and educational institutions, PSA endeavors to enhance public awareness of art and the enriching qualities it brings to our lives.
